

## A Regeneration Strategy for Brent

Brent is a borough of stark contrasts, where affluent suburban areas sit cheek-by-jowl with inner city London. Dynamic population movements have resulted in Brent becoming the most ethnically diverse Borough in the country, generating a series of distinct local communities, such as Willesden, Harlesden, Wembley and Kilburn. Park Royal &ndash; London&rsquo;s largest industrial estate &ndash; is situated in the southwestern corner of the Borough. Wembley is home to the new National Stadium. This document, entitled "A Regeneration Strategy for Brent ", proposes a vision for the Brent of the future &ndash; a vision rooted in a rigorous analysis of the trends impacting on the Brent of today.
